

NEW WORLD

Lyrics: EN5

Separation and all the hate

Together before it is too late

Open your eyes to a new world

Our time has come

Leaving footprints on the earth

Ever since our birth

Remember what we're living for

Our time has come

Oh Oh, Oh Oh - New world

Slow down, slow down, slow down

Don't need to be perfect

Stand up and just act

Our time has come

Oh Oh, Oh Oh - New world

This is the time for a new world

The illusion of freedom and equality

Make it reality

The illusion of freedom and equality

Make it reality

Our time has come, now!
